So round so firm so fully packed that's my gal  
So complete from front to back that's my pal  
(Tosted } Toasted by the sun and I'm a son of a gun  
If She don't make my five o'clock shadow come around  
at one  
You can bet your boots had walked for miles through  
the snow  
Just to see her tooth paste (face) smile they mentioned  
on the radio  
If you don't think she's lot of fun just ask the man who  
owns one (once wants)  
So round so firm so fully packed that's my gal  
[ steel - guitar ]  
So round so firm so fully packed she's for me  
She's just like a money (bag) back guarantee  
Like a barfly goes for drink like a (bobbysocks)  
bobbysocks go for Frank  
And just like Jesse James he go for money in the bank  
From a head to foot she's a perfect size she's a (wist)  
whiz  
But she wears a forty-five gun that is  
She's got a look that's so (impression) impressin' she's  
got furs that's sorta fashion  
So round so firm so fully packed that's my gal
