Your baby loves you now  
So, don't make her blue now  
You better start being true now  
I'm telling you why

(CHORUS)

Because if you break her heart  
Somebody's gonna come along  
And he'll steal her away from you  
Soembody like me

Let me tell you, friend  
I'm not butting in  
But I think it's such a sin  
If you don't treat her right

(CHORUS)

She wants to be held tight now  
Each and every night now  
You better treat her right now  
I'm telling you why

(CHORUS)

I hope you listened too now  
Each word that I've told you now  
These things you better do now  
Or you won't long

(CHORUS)

Will steal her away  
Somebody like me
