(Uh huh there is always me)

When the evening shadows fall and your wondering  
who to call  
For a little company there's always me  
Or if your great romance should end and you're  
lonesome for a friend  
Darling you need never be there's always me

I don't seem to mind somehow playing second fiddle  
now  
Someday you'll want me dear and when that day is  
here  
Within my arms you'll come to know other loves may  
come and go  
But my love for you will be eternally  
Look around and you will see there's always me
