(Don Robertson)

Walk with me put your faith in love and walk with me  
You're the one my heart has waited for  
Trust in me leave your tears behind and trust in me  
I'll be here by your side forever more.

True as the stars that shine up above  
That's how we stay we'll find our love  
Heaven's doors just a step away so darling please  
Put your hand in mine and walk with me.

True as the stars that shine up above  
That's how we stay we'll find our love  
Heaven's doors just a step away so darling please  
Put your hand in mine and walk with me.
