When you say love you're telling everyone your
moment's come
And you've found out what you've been looking for
When you say love you've said the only word that tells
the world
You never will be lonely anymore
You've got a pretty rainbow of your own
And at last you've found your pot of gold
You're completely satisfied a feeling of contentment
fills your soul

When you say love it means you've found your special
one
And that you care enough to give your very best
When you say love there's not another word that says
so much
But that four-letter word means happiness
Your heart has given wings to touch the sky
Much higher than the eagle dares to fly
If you took everything you've heard and tried to make a
magic word
You'll find you've said it all when you say love

When you say love it means you've found your special
one...
When you say love
