You don't need me anymore you're not a girl out in the  
cold  
Searching for someone to care reaching for a hand to  
hold

Someone to turn to until your heart was well again  
But that was all my love was for you don't need me  
anymore

I'll go on loving you till the day that I die  
But I was only meant to teach the broken wings to fly

Till you found somebody who means much more to you  
than me  
Then the tenderness we knew will be just a memory  
You only needed someone to guide you through the  
storm  
Now you're safe upon the shoulder you don't need me  
anymore

And so I'm walking out the door you don't need me  
anymore
