You don't know love like you used to
You don't feel love like you did before

You ran with the dead today
With the moles from the CIA
They see more than you ever see
Headlights in your rear view mirror
A panther's eyes as he preys on fear
You hunt for love, you electioneer

You ran with the dead today
Fill the cemeteries where ghosts still play
Before you run look out further away
One look at the soaring sight
Every little thing you die to hide
You know the truth when you lie

You don't know love like you used to
You don't feel love like you did before
You don't feel love like you used to
You don't feel love like you did before

You don't know love like you used to
You don't feel love like you did before
You don't know love like you used to
You don't feel love like you did before
You don't know love like you used to
You don't feel love like you did before
You don't know love like you used to
You don't feel love like you did before

You don't know love like you used to
