Met a girl,
Out in monterray she had raven hair, and eyes for me
she kissed me soft, oh but she loved me hard she tried
to make me something, i could never be now, there's
an airplane on the runway that's me on my way out
heading for some place, i've never been and i never
said goodbye i never stopped to wonder why
sometimes, you just go against the wind now some
guys, they always take the easy way they never rock
the boat, never make no waves but me...i never could
see it like that life's a little too short - to play it so safe
I'm just a dreamer travellin' light another rebel, on a
one-way flight yeah..... screamin' through the night
runnin' from the one i love runnin' from a real love fade
out..
