"Next Generation"

There's a place not far away, oh oh
Where we can go to get away, oh oh
There's no rules and there's no laws, oh no
There's no fighting, you can't go wrong, oh no

'Cause we're the next generation
Destroy your generation
'Cause we're the next generation
Destroy your generation
'Cause we're the next generation
Destroy your generation, aah

Help me up when I'm down and out, oh oh
Hear me scream and hear me shout, oh oh
Time to blow their generation away
Let 'em know that we are here to stay

'Cause we're the next generation
Destroy your generation
'Cause we're the next generation
Destroy your generation
'Cause we're the next generation
Destroy your generation, aah

One, two, one, two, three, four

My freedom's been taken away, oh oh
Don't wanna hear what I gotta say, oh oh
Lock me up and throw away the key, oh no
This is my destiny, I said no, no

'Cause we're the next generation
Destroy your generation
'Cause we're the next generation
Destroy your generation
'Cause we're the next generation
Destroy your generation, aah
