"Tension"

They're mounting on the front lines
Stuggles going on between black and white
Don't blame me for enslavery
It's time to choose your enemy

[chrous:]

Tensions tensions
Are you the exception
Tensions tensions
They don't pay attention
I've got the freedom doin' what I choose
But it's only guaranteed when it's not in use
Two wrongs do make a right
It's time to put up a fight

[Chorus]

I work all day slavin' for the few
You get off tellin' me what you do
These chains are pullin' me down
Gotta get out before I drown

[Chorus]
