Gotta make it happen, gotta go for the gold
gotta make a change before you get too old
express yourself but don't expose
show yourself thru your hair and clothes

[Chorus:]

we're the ones
that are gonna make it
we're the ones that ain't
gonna take it no more
you're bangin your head against the wall
can't you see the writing it's on the wall
we've seen it all, it's happened before
now it's time to make you roar

[Chorus]

gotta get away get me outta here
futures looking hazy, step back and see it clear
what cha gonna do, i'm givin' you a clue
take your time, decide before you say you're thru

[Chorus]
