If I could only be a butterfly
I would stay up all night
I would haunt your house
And in your bed
While you're asleep
I'd whisper in your ear
I love you boy,
I love you

If I could only be a butterfly
I'd never reach the ground
I could see the fireflies
And in your bed
While you're asleep
I'd whisper in your ear
I wanna take you once
I'll take you twice

Get on
Get off
Get on
Get off
Don't leave me unplugged
Get on
Get off
Get on
Get off
Don't leave me unplugged

I have only come to see you shine
I want to undress your mind
There's room for us both to fly
Just let me undress your mind

If I could only be a butterfly
I would love all night
I'd colour your skies
And in your bed
While you're asleep
I'd whisper in your ear
You've left a bunch of stars
In my hand

Get on
Get off
Get on
Get off
Don't leave me unplugged
Get on
Get off
Get on
Get off
Don't leave me unplugged

I have only come to see you shine
I want to undress your mind
There's room for us both to fly
Just let me undress your mind
