Crushing The Entire World  
Hunger for power  
Always will grow stronger  
See it in your eyes  
Killing everything in sight  
For your survival

You hide from the shadows  
That try to manipulate you

Into the illusions  
You fight with your eyes closed  
Shadows are your comforts from lies  
Inside your dormant mind  
You will hide forever  
For all eternity  
Your dormant mind  
You will hide

You destroy everything  
The agony  
Despaired and all enchained  
You will die

Sleepwalker (x2)  
Open your eyes(x2)  
Sleepwalker(x2)  
Before it's to late(x2)  
Sleepwalker(x2)  
Before it's to late(x2)  
Open your eyes(x2)  
Sleepwalker  
Oh, sleepwalker
