"Love This Way"

I want to run into someone's arms
Lie on a bed of roses
I want to feel just like Juliet
I wanna fall in love

I've got a feeling?

Everybody wants someone to love
Somebody they can trust
Somebody they can touch
Everybody wants to give their heart away

Everybody needs a little tenderness
To feel understood
To feel passionate
Everybody wants to be in love this way

I know I do, what about you
Oooohhh

I wanna be somebody's baby
I want to cry and still feel beautiful
Maybe, I really just wanna be myself
Am I the only one

I've got a feeling?

Everybody wants someone to love
Somebody they can trust
Somebody they can touch
Everybody wants to give their heart away

Everybody needs a little tenderness
To feel understood
To feel passionate
Everybody wants to be in love this way

I know I do, what about you
Oohhhh

See I do

Doesn't everybody wanna give their heart away
I do
Doesn't everybody wanna love this way, cause I do

Everybody wants someone to love
Somebody they can trust
Somebody they can touch
Everybody wants to give their heart away (to give their
heart away)

Everybody needs a little tenderness (a little
tenderness)
To feel understood
To feel passionate
Everybody wants to be in love this way (doesn't
everybody wanna be in love this way?hey)

I wanna feel like an angel
I want to fly on a beam of moonlight
I wanna see heaven upon the inside
I wanna be in love this way

I wanna feel just like Juliet, Juliet, Juliet

Everybody needs a little tenderness
To feel understood
To feel passionate (what about you)
Everybody wants to be in love this way
