Farewell

Yesterday when we were young
Like a flower in the desert sand
So transient the cycle of life

[Chorus]

Within a moment of time
Within a while of a years' decline
The brightest of stars above
In night-time skies divine
Here
It is an everflowing stream
When they are coming to redeem
Us from the night
That never sees the day

[Chorus]

Within a moment of time
Within a while of a years' decline
The brightest of stars above
In night-time skies divine
And when the years passing by
Noone will answer noone will cry
The solace in sea of tears
Into a new sunshine

[Bridge]

Glory ascending
From days neverending
Unfold your dreams right now

[Chorus]
