How could I ever see
This blueprint of reality
Spoiling for a fight I left no stone unturned

For ever and one day
The gale force in my heart will stay
And I don't care a straw about the lessons learned

[Pre-chorus]
Free I can hear this haunting melody
Ever since the spirits rose in me

[Chorus]
The shadows of darkness
Or the light of the world
Leaving those energetic streams
A soldier of fortune
Or a fancier at all
Keeping on for perennial dreams

Will this tide ever turn
Before my restless heart will burn
The elfstruck time elapses to the eventide

It is a game of skill
And it is playing with your will
The floatlight marks the harbour there it is my guide

[Pre-chorus]

[Chorus]

[Bridge]
The spangled heaven's gleam
A neverending stream
Will arise in my perennial dream

[Chorus]
