A touch of hope  
A tinge of green  
I could take an oath on

A whiff of the unknown  
A bloom to bear  
I'm on the verge so slow and sure

Daydream full of memories  
No blessing in disguise  
A thundery front appears to my surprise  
The halcyon days are near to make their rise

[Chorus]  
A-light with a dream  
Is where we begin  
So boundless and flowing  
It's lustrous as a star  
The force of what we are  
See you fading afar

The mystery-monger  
Shall be unhorsed  
Won't get out from under

Need a knight's move  
The score is drawn  
But I will keep an eye on

Time is out of joint now  
Devouring each and all  
The lonely wind has turned into a squall  
A solitary force to cover all

[Chorus]

Free me  
Let me gain ground  
Lull me to sleep safe and sound  
Won't you hold on  
Just make a start  
Even when we're worlds apart

[Chorus x2]
