I came from miles around  
To holy ground  
The riddance of my soul  
To take control  
So where are you?  
With all my heart I try  
To wish away the big goodbye

[Chorus:]

Whenever you are mine  
Above the timberline  
I'm bound for you aflame with my desire  
Whenever I am here  
Abundantly it's clear  
I won't turn tail and run  
I come undone

You're closer to the bone  
A heavy stone  
(You're) Kicking up a storm  
A pain so warm  
Shall I give in?  
As straight as die my friend  
The road has come to an end

[Chorus]

Where I turn and I steer  
It's all hope and fear  
The current of time  
The only port of call  
Can save me from the fall  
Can set it all alight

[Chorus]
