Followed our wind to shape the course  
Had a blueprint, we are in mid ocean  
Hyaline, followed our devotion

We followed traces into freedom  
Into the afterglow, we left no stone unturned  
Out of this forlorn place to our home  
Casted adrift we are not sure if we return

Where are you?  
Where have you gone to?  
Where are you?  
We're heading for skyline's end

Putting down the peril  
No flashing light, it's just our will  
Not resigned to our fate  
No kingdom come, so we still wait

Where are you?  
Where have you gone to?  
Where are you?  
We're heading for skyline's end

All untouched by human hands  
We stand on hallowed ground  
A beauty in abundance  
The paradise we found

Following our destiny  
Can't feel what's wrong or right  
And while away the precious time  
Blinded by our sight

For a moment  
For a spell we put the tin lid on  
The sky is getting overcast  
When all is said and done

For a moment, for a spell  
Skyline's end, the last farewell

Where are you?  
Where have you gone to?  
Where are you?  
We're heading for skyline's end

Where are you now?  
Where you gone to?  
Where are you?  
Where are you now?  
Skyline's end
