

Edge Of Earth "House Of Cards"

Visit "[House Of Cards](#)" on [MotoLyrics.com](#)

The sun set on you and me before we began
Never really thought that I'd ever run
Re-arrange the puzzle up inside my mind
and I throw myself into the fire
Love me and hate me all said and done
in a different world you may have been my one
the fire never burns inside a dream
never meant to be a liar

You put all your cards on the table
I'm sorry I couldn't stay
I wish that it could be different
but it won't work out your way
I just don't know what to say

Time heals wounds those feelings will fade
friendship meant more than the games we played
release the handkerchief you hold for me
and through yourself into the fire
seams of a dream sometimes come undone
in a different world you would have been no one
caged all the truth up inside your mind
went and made yourself a liar

And it burns...
I need some water...
helps me to feel alive...
You put all your cards on the table
I'm sorry I couldn't stay
I wish that it could be different
but it won't work out your way
I just don't know what to say
