

Edge Of Earth "Over Exposed"

Visit "[Over Exposed](#)" on MotoLyrics.com

Hey you Mr's over exposure to this life
Fly and you'll see the back of this forever
She is often borrowed to make men fell ok
She's fallen all this time it was never meant to be this way

Hey now Miss indecision face your life
Fly and you'll find a better way it's now or never
Well her eyes speak of sorrow but there's no tears on her face
She's fallen all this time... it was never meant to be this way

And if you see here in front of me
Would you take my pain away
I know you're around me
But I can't stay away
All these years and it's all gone wrong
Take my pain away
I know you're around
It was never meant to be this way
She can't live... she can't cry...
All she needs... is gone...

And if you see here in front of me
Would you take my pain away
I know you're around me
But I can't stay away
All these years and it's all gone wrong
Take my pain away
I know you're around
It was never meant to be this way

La da la da da la da da da... it's over...
La da la da da la da da da... it's over...

Floating she's a soul... It's over
La da la da da la da da da... She took her own pain away...
