You've seen yourself, you've ruled the day
You've watched it all fade away
Now and then you've nearly felt so high
But it's never realised
Well here you are your back again
Lose yourself it's time they see
Today's the day you touch the sky

Their eyes see, they're here to see you
It's your time this time they're here to see you

You've walked alone, so how's it feel
To be the one now it's real
Superstar you're not alone this time
It's time to feel high
An age ago you planted seeds
The ones that grew obsessive dreams
Today's the day you reap the prize

Their eyes see, they're here to see you
It's your time this time they're here to see you

The world you've got at your feet, so much there to find
We found you there without wings, royalty inside
You finally found out your dream was real
You finally found how it all would feel
Standing there all you've got, you should never hide
Now they know everything, the superstar inside
You finally found out your dream was real
Can you take it all...

It's intoxicating, step up come and be someone
Now you're rated, this day you're the only one
Fly away now, up high with the burning sun
Can you taste it, this day you're the only one
