I will love u till the day I die
I would tell u how much I'll need u everyday
for my life long to love some one like u
with a heart silhouetted the perfect passion

I would try to be a better lover
I don't care if I lose my all
cause it's u I've been dreamin' for this life time
so here's my heart ,waitin' for u to take it baby

Come & take my heart tonite
cause it's u I've been waitin' for all the while
come & take my heart tonite

make me whole again

I see clouds filling up the moon
& the greens turnin' into blue & faded
I would say things were wrong & now I'm missin' u
I will have to make amends cause it'll be till the end

do u think I would stop for what I've been leavin' out
these nights
girl I've been cravin' u'd be mine all mine
u are all that have made my life, I won't let u down this
time
baby I want u back here in my life forever
