One quiet night the lady traveled out beyond the
monastery
Her quest was one of urgency and human preservation
She traveled with companions to reach the ruined city
Where lay the means to save her kind, a path to their
salvation
When there they searched for evidence of where the
Queen

once slept
And came upon a gateway, which was tightly closed
and
barred
A stark inscription warned them of the risk of their next
step
But choices were no more; they had already come too
far
