

## Edgewater "Apples & Oranges"

Visit "[Apples & Oranges](#)" on MotoLyrics.com

You are buried in complications  
Falling faster, falling deep  
Drowning in their expectations  
Take a step back and you'll see

Step away, and separate  
Separate the apples from oranges  
Step away, and separate  
Separate the clean from distorted

Disconnect the wires that feed you  
Unannounced, just come clean  
Strip away from what they made you  
You will find what's underneath

Step away, and separate  
Separate the apples from oranges  
Step away, and separate  
Separate the clean from distorted  
Disconnect the wires that lead you  
Open your eyes before your time flies away

Open your eyes before your time flies away  
Please don't judge me, there's no reason  
Don't misjudge yourself, there's no reason  
Disconnect yourself from the reason

Step away, and separate  
Step away, and separate  
Separate the clean from distorted  
Disconnect the wires that lead you  
Open your eyes 'cause it's your time

Separate  
Separate  
Separate  
Separate  
Separate
