Crying in the still of the night  
A yearning for shelter  
Silence kissing your wounds  
Soothing your pain  
Darkness - And what do they know  
'bout losing direction, clutch at a straw  
Cherish the hope to make it finally  
Home

Ooooooh (x4)

You long to be see-through  
So nobody can tell  
Whenever they made you  
Bleed your pride away  
Now you're driven by a one track mind  
Initiating you - Splendid flowers  
Blossom from the wounds  
The stronger the poison  
The sweeter smells the bloom

Don't you try to stand your ground  
Cause you're only coming home..

To the heart of fire  
You're home- found asylum  
In a world where the broken dance  
On shards of glass  
I've seen fire - ruins and fire - and fire  
In a world where the broken dance  
With shattered dreams

It's burning inside you this emotional hell  
And you keep on smiling upon the icy tiles  
A stream on fire to sweep the fears away  
Seems like forever  
Too long you've had to wait  
Plunge in darkness for wicked harmony

Little angel thrown away  
Sure'll be back another day

To the heart of fire...

Now see the cornered children  
I see them off the beaten track  
Embracing and crying  
Freezing and dying  
Concealed humiliation  
Now let them dance  
Liberation cruelty free  
Dance towards the gallows-tree

Boogeyman was sought and found  
Boogeyman has found a home

In the heart of fire  
He's found the asylum...
