Sitting by the window  
Staring out into the night  
Waiting up for the light of day  
And the sound of silence  
The faintly flaring candle light  
Parting has got me  
Around to go insane

Alone I try to while away my time  
Seconds turn to ages  
As I close my eyes and wait  
Sometimes I wonder  
What's the reason why  
We long for someone to embrace  
And say hello to say goodbye

Carry on - and I will forever  
Longing drives bad memories away  
And still I carry on and I will forever  
'Cause when I see you smile  
I dare to believe again

Is there anybody out there  
To keep on looking for  
If you don't know then lie to me  
Blue eyed for a letdown  
If this is what it takes  
To maybe see the light...  
I'll dare to see'd another day

Carry on - and I will forever  
Longing drives bad memories away  
And still I carry on and I will forever  
'Cause when I see you smile  
I dare to believe again

I tried to build a wall  
And let nobody in  
To be on my own  
Without love and without pain  
Without pain  
I don't let know why

Be every time  
I look into you face  
Into you face  
I am caught and I relapse again

Carry on, it's forever  
Longing drives bad memories away

Carry on - and I will forever  
Longing drives bad memories away  
And still I carry on and I will forever  
'Cause when I see you smile  
I dare to believe again
