City lights are calling  
slowly coming back to life  
Speeding in the fastlane  
Mama let us waste no time

Devil in the doorway selling any kind of hell  
We're just coming out to play the game

We never cry for love - we're superheroes  
We are back where we belong  
We never cry for pain - we're superheroes  
Make a stand where we belong

Way too long I've tried to be  
what I could never be  
For too long you've rolled the dice  
but you can't control me  
I ain't talking 'bout romance  
you may fiddle I may dance  
Anyway it's just a game we play..  
We never cry for love - we're superheroes  
We are back where we belong  
We never cry for pain - we're superheroes  
Make a stand where we belong we're superheroes

You gotta move to stay alive  
We're gonna rock the bash tonight..

Cry for love-we're superheroes  
We are back where we belong

We never cry for love...
