[Monoxide]

I can walk on water and freeze it on step one
And then I'll stick my finger in it and melt it like it was
hot sun

[Madrox]

Well I can turn your adam's apple into apple juice
Start to strangle muthafuckas 'til their face turn blue

[Monoxide]

I can be the world's greatest serial killer of all time
And I'll end your life at the drop of a dime

[Madrox]

I can float above the clouds, way up in the sky
And it's my choice if I live or die

[Monoxide]

Or I can be the strange pizza man that always knocks
twice
And when you open up your door I give your
muthafuckin' neck a slice

[Madrox]

I can take a million dollars and just throw it away
Cause it'll never replace a single ounce of my sanity

[Monoxide]

I can be the last angel standing ontop of the hill
Or the green demon waiting on your window sill

[Madrox]

And I can become an icon for the oppressed
'Cause their hearts still beating in their unforgiven
chest

[Chorus: repeat 2X]

(You!) don't wanna be like (Me!)

(You!) don't wanna be like (Me!)

And this is the mind of a serial killa

[Madrox]

I can buy a shotgun from Target with attempts to set it off

I can load that bitch in the parking lot and shoot that shit off

[Monoxide]

And I can be the book of the dead, a Vampire or a demon

But either way your fucked, 'cause when I leave your not breathin'

[Madrox]

Well I can part the sea with the wand of a wizard

And turn a hot day into a windy blizzard

[Monoxide]

I can be an axe in the backs of people who wanna trash talk

And leave your body slaughtered all over your momma's sidewalk

[Madrox]

I can disappear into the air like a phantom in the night

And I can die if I'm exposed to excessive sunlight

[Monoxide]

And I can show you how to dig a bitches grave in less than 20 seconds

And I'll shove that bitch in there and let her family start to guessin

[Madrox]

I can grab you out of your world and show you horrible things

And I can show you the terror that curiosity brings

[Monoxide]

And I can be the last straw, that puts you over the edge

And leaves 11 at your work place dead

[Chorus]
