Say you can't pay attention  
It's getting pretty rough  
You feel a little down now  
You can't get it up  
They got a pill for that  
They got a pill for that  
They got a pill for that  
They got a pill for that

Now the pressure is rising  
It's getting to your head  
Nothing is exciting  
You want to stay in bed  
They got a pill for that  
They got a pill for that  
They got a pill for that  
They got a pill for that

Side effects may include:  
Headache and anxiety  
Loss of appetite mood swings  
Palpitations & dry lips  
No desire to be kissed

You lie down in the darkness  
It's there when you awake  
Hounded by a problem  
Haunted by mistakes  
They got a pill for that  
They got a pill for that  
They got a pill for that  
They got a pill for that

They got a pill for that  
They got a pill for that  
They got a pill for that  
They got a pill for that

They got a pill for that  
They got a pill for that  
They got a pill for that

They got a pill for that
