In your sliver of sky you pull the strings  
You twist your fingers in everything  
You meet a woman you look in her eyes  
You smell like a friend but you criticize

How could they know you hate them, you hate them?  
You're hot, you're cold, you're inside, you're out  
Don't tell me, I know ? you lead, they follow  
All the way down

You blow bubbles, yeah this is your trick  
You give 'em a name and you make it stick  
You hold 'em so close they can't make you out  
You banish the new, you banish the doubt

How could they know you hate them, you hate them?  
You're hot, you're cold, you're inside, you're out  
Don't tell me, I know ? you lead, they follow you down  
You down, you down?

It's a mystery of the heart  
Why we all fall in love with the dark, the dark

How could they know you hate them, you hate them?  
You're hot, you're cold, you're inside, you're out  
Don't tell me, I know ? you lead, they follow  
Yeah, I know where that road goes  
You lead, they follow  
All the way down
