No, no I can't be trusted
Driving out here alone
With these thoughts
?Cause my brakes are busted
And the engine's shot

The heat serves to keep you soft
So I can mold you
And you won't crack
But I don't know how to
Turn this thing off
And I don't think I can take it back
No I don't think I can take it back

I'll just make you braver
Than you are
I will paint your eyes
A prettier green
I will watch you fall
Violently for me?

I took you to bed with authority
I replay that kiss by the hotel desk
?Til the tape just melts
Runs all over me
And we're in the same sticky mess

Maybe it's not you that I need
Maybe just your picture is enough
Maybe you're as mine as you're ever gonna be
And maybe that's all I need of love
Yeah, maybe that's all I needed

?Cause I can make you
Braver than you are
I will paint your eyes
A prettier green
I will watch you fall
Violently
Violently
