

Edinburgh Fire

"Every Time We Walk On"

Visit "[Every Time We Walk On](#)" on MotoLyrics.com

Did you see the death tolls grow away?
(This is the real battlefields)
Are you scared of those enemies?
And I know you won't to get down

Have you seen the blood spill out of their face?
(No more time, to say surrender)
These cruel situations make your feel unbeliever
And I know it's hurts your feeling again.

Chorus:
I know this battlefield is for the coward and
Unmasked people from the youth country

And every time we walk on this battlefield
We can smell the death body of our families

Did you see the death tolls grow away?
(This is the real battlefields)
Are you scared of those enemies?
And I know you won't to get down

Back and forth attacking the enemies
(Blood were spilled on their head)
I see our mothers cry on this land
But we should never give up.

Clean part:
When these wars come to an end?
Should we restart it and skip this war
Oh god please gives us the right way
To make our motherland undistracted
