It's a beautiful day for ice cream  
And blue waves back of a limousine  
Just carried away in life's streams  
You're cuddling me in a Hollywood pavilion

It's a beautiful day for launching  
Your love beams out into the atmosphere  
And maybe you'll say you love me  
While you and me talk  
On the steps of the pavilion

Hey, let's try to get distracted  
Hey, let's try to look away  
Hey, let's try to have a good time  
Everyone knows it's a game  
Everyone knows it's a game

It's a beautiful day for launching  
Your love beams to the top of the stratosphere  
And maybe you'll say you love me  
While you and me talk  
On the steps of the pavilion

It's a beautiful day for driving  
So blindly in the back of a limousine  
And maybe you'll say you love me  
While you and me talk  
On the steps of the pavilion

Hey, let's try to get distracted  
Hey, let's try to look away  
Hey, let's try to have a good time  
Everyone knows it's a game  
Everyone knows it's a game...
