(Love is real EP)

Wonder what you're doing now
Listen for your telephone call
Nothing to talk about
Make up any reason to stall
It's exciting me
Like playing out the scene on the balcony

And it's real
And it's real
So is there anything at all to talk about
My love is real
My love is real

Wonder what you're doing now
Listen for the afternoon call
Nothing to talk about
Make up any reason at all
Write my mythology
And find a new way to display the scene

And it's real
And it's real
So is there anything left to talk about
My love is so real
My love is real
I'm not afraid to tell you how i feel
My love is so real
My love is real

Wonder what you're doing now
