Look at the time
I'm gonna shut this baby down
Let's remain unconscious
I can tell it's raining
I'm gonna shut the hardware down

There has to be a reason
I know you
Just what I never knew
I always wanted
Won't you wait for
A note under the door
Won't you wait for me

Too many miles
Me on the coast
And you in the meadow
Too many miles

Check out the time
They had to shoot the stars back down
I only know I love you
I can tell it's fading
I don't know what it's like for you

There has to be a reason
I know you
Just what I never knew
I always wanted
Won't you wait for
A note under the door
Won't you wait for
A note under the door
Won't you wait for me
