Off to New York  
Either that or  
Maybe Philadelphia tonight  
I know it isn't right  
That I'd miss you  
So what  
Maybe I'm unhappy

And it's hard  
Maybe impossible  
As long as you're decided  
I can't stay mad at you  
As long as there's a sparkle of light  
In the ancient heavens  
I will always love you like this

Off to Detroit  
Or was it New York  
Might as well be anywhere tonight  
Get you an emotion detector  
Check for signs of life

But it's hard  
Close to impossible  
As long as you're decided  
I can't stay mad at you  
As long as there's a sparkle of light  
In the ancient heavens  
I will always love you like this  
In the ancient heavens  
I will always love you like this
