Off to New York
Either that or
Maybe Philadelphia tonight
I know it isn't right
That I'd miss you
So what
Maybe I'm unhappy

And it's hard
Maybe impossible
As long as you're decided
I can't stay mad at you
As long as there's a sparkle of light
In the ancient heavens
I will always love you like this

Off to Detroit
Or was it New York
Might as well be anywhere tonight
Get you an emotion detector
Check for signs of life

But it's hard
Close to impossible
As long as you're decided
I can't stay mad at you
As long as there's a sparkle of light
In the ancient heavens
I will always love you like this
In the ancient heavensâ€¦
I will always love you like thisâ€¦
