If something has to change Then it always does If something has to change then it always does

You don't need this disease Not right now No you don't need this disease Not right now

Oh you don't need this this disease You don't you don't need this disease

If something has to give Then it always will If something has to give Then it always will

You don't need this disease Not right now No you don't need this disease Not right now no no not right now

You don't you don't need this disease You don't you don't need this disease

You don't you don't need this disease You don't you don't need this disease You don't

Would you fall down

Would you fall down

Oh you don't need this this disease You don't you don't need this disease You Won't Fall

Down

You don't need this this disease you don't you don't need this disease You don't.
