I don't wanna be ignored, oh God
When I'm a gun in a fist fight
You're chewing with an open mouth, raw meat
Your blood drool attracts the flies

I give a little to you, I give a little to him
I give a little to her
I give a little to you, I give a little to him
I give a little to her

I don't wanna be left out or get fucked
But there's a talent in your lies
If you're chewing with an open mouth, raw meat
Your blood drool attracts the flies

I give a little to you, I give a little to him
I give a little to her
I give a little to you, I give a little to him
I give a little to her

A little bit for myself
Don't put a price on your health
I'll give a little to her
I'll give a little to you, I'll give a little to him
I'll give a little to her

Don't wait for the sun
Your story's been spun
These boys, they just wanna have fun
Your damage is done

I give a little to you, I give a little to him
I give a little to her
I give a little to you, I give a little to him
I give a little to her

A little bit for myself
Don't put a price on your health
I'll give a little to her
I'll give a little to you, I'll give a little to him
I'll give a little to her

I give a little to her
I give a little to her
I give a little to her
I give a little to her
