"The Picture"

Visit "[The Picture](#)" on MotoLyrics.com

You can't fail this time
I'll be where you are
Be afraid for me
Be too good for me

You look back at the picture
And realise things then were different
It's not who you know
It's what you know then

Rest your weary head
Close your heavy eyes
This last drink so near
Your smile shines on me

You look back at the picture

And realise things then were different
It's not who you know
It's what you know then

Look at the picture
And realise things now are different
It's not who you know
It's what you know then
Know then
Know then
Know then
Know then
Know then
Know then
Know then
