## "Temperature"

Unexpectedly started touchin me, thought it bothered me but it made me weak.

Its only supposed to be 70 degrees, but you rubbin me makes it 103.

I can see the steam on my back window, got to cool it down

Don't want the neighbors to know, we've only just begun.

Cause ya make my temperature rise up

When ya touch and ya rub and you hug and you hold me,

slowly ya make my temperature rise up.

When you kiss both my lips, grab my hips, then you pull me in closely, ya make my temperature rise up

cause ya show me, show me through it all you'll never leave me lonely, ya make my temperature rise up. And I can't get enough

I just can't believe got me tremblin, now i'm givin in to your every wish.

How'd it come to this, we were only friends that's what i'm thinkin while surrenderin.

Now ya show me things that I never seen and I never thought you'd have this much to bring. If you don't tell you could be the one

Cause you make my temperature rise up

When ya touch and ya rub and you hug and you hold me,

slowly ya make my temperature rise up.

When you kiss both my lips, grab my hips, then you pull me in closely, ya make my temperature rise up

cause ya show me, show me through it all you'll never leave me lonely, ya make my temperature rise up. And I can't get enough

I never thought you'd be the one. I never knew you felt

it this much. How could a friendship turn to love? You got me when ya started touchin me, touchin me, and rubbin me, rubbin me holdin me, holdin me. Creating this heat got my temperature risin so much boy I think I'm in love.

When ya touch and ya rub and you hug and you hold me,  
slowly ya make my temperature rise up.  
When you kiss both my lips, grab my hips,  
then you pull me in closely, ya make my temperature rise up  
cause ya show me, show me, through it all you'll never leave me lonely, ya make my temperature rise up. And I can't get enough

When ya touch and ya rub and you hug and you hold me,  
slowly ya make my temperature rise up.  
When you kiss both my lips, grab my hips,  
then you pull me in closely, ya make my temperature rise up  
cause ya show me, show me through it all you'll never leave me lonely, ya make my temperature rise up. And I can't get enough
