I never thought there'd be a day
when I would have to question if you
really want to continue together
how did it ever get this way
when just a week ago
we were planning our lives
you spend alot of time away from home
and all I can do is try to hold you longer
when were together
you tell me that it's still the same ohh
but looking in your eyes
I know something ain't right
cus I know

This ain't us
this isn't us
you gotta tell me how
I made the love disappear from your heart
it tore us apart
baby this ain't us
this isn't us
your broke my heart many times
don't know who to trust

This ain't us, yeah yeah
baby this aint us, yeah yeah

What happened to the promises baby
what happened to it's only you and me forever
but everyone's allowed mistakes
cus I know I made a couple of them in my life
but why is that a fixing thing
it's like you werent missing me
if we don't grow up and make things right
it'll be the worst mistake of both of our lives
This ain't us
this isn't us
you gotta tell me how
I made the love disappear from your heart
it tore us apart
baby this ain't us
this isn't us

your broke my heart many times
don't know who to trust

We started out again
so how did it get this way
and after all we gave a chance
we let it slip away
I don't wanna be the one
stuck with in the past
so boy I will decide for you
if yesterday with you is through

This ain't us
this isn't us
you gotta tell me how
I made the love disappear from your heart
it tore us apart
baby this ain't us
this isn't us
your broke my heart many times
don't know who to trust

This ain't us baby
baby this ain't us, no no no
