Lustful bitch from damnation, Hell wicked slut
Death bloody orgy
Thousand virgins cry ecstasy and pain
Forcing the pure to eternal perversion
Live in sin and evil Witch of the flame
Cast a blackened spell of serpent of all Hell
Deceitful wench of darkness
Countess of lust Sadistic whore
Goddess of perversity
By black light of the moon
Holy fetus is ripped from breeding womb
As the blood runs oh, on the pentagram of hate
She takes her soul
Raping the horns of the master of torment her loins
they burn
A scream of all pleasures
From thrusting of evil spreads her lips wide
Deceitful wench of darkness Countess of lust Sadistic
whore
Goddess of perversity
Pure hate from her veins flows down her thighs
Come ride the slut
Form circle of damned cut deep the knife ritual of pain
Cult witches dance as the virgins slayed in fire
Goddess of perversity performs the rites of sodomy in
Hell
