Fasten me to your side
Please don't leave me behind
Let the rain fall before I do
Hidden in the dark where I search for you
(I see lightning I hear thunder)

{chorus}
Inside of me is a place I wish to be
Can you help me find the way?
Can you save me from the rain?
I know that I'm the only one that's left for me
But I need someone to free
All the hurt inside of me

How I need you right now
You've forgotten me somehow
If I see you you'll remember
I swear that's when I will surrender
(I see lightning I hear thunder)

{chorus}

The storm is over me now
Like the rain I feel myself falling down
Hidden in the dark where I search for you
Let the rain fall before I do

{chorus X2}
