Mary can't move
She hurt her neck
She's paralised
But she's a popular girl
She just smiles
As her friends pass by
It's funny how they all have
The look of Mary in their eyes
Funny but it's scary
They all look like Mary

Everyone is high on Mary's misery

They're all high
So fucking high
So god damn high
On Mary

She's a pretty girl
And she just copes with
All of her pain
She sells her pills to get by
She does what she can
Its funny how we all have that look of Mary in our eyes
Its funny but it's scary
We all look like Mary

Everyone is high on mary's misery
