Our Love
She casts her shadows on the wall
She runs
to me now
Her eyes are sapphire doors
Burning down
her desires
Calling on me to
Whip me child
boy
whipping boy

Whip me boy

When she touches
Heavens velvet glove
Gives her strength
To live
I bow down at Her Feet
She calls down
the moon
I 'm
in love with you

Just says

Whip me boy

She tells me
It's just the way
she has to love
She needs a chain
Around her neck
She tries & breaks away
now

Whip me boy
whip me boy
she desires my love'
she desires
