Sitting here thinking about the treasures you bring
The way I feel like a king
Sapphire eyes and golden hair
Fairy stories of a lady fair

BR
When love hits you in the morning
You'll give up all your care
Drift off with heavens treasures
Land of fairy gardens share

CH
You are there

No greater love can we make
Through each other's eyes we partake
Giving our lives away
Creating our love new every day

BR 2

Our love it is alive
We own the night
Fairies take flight
We are the way the truth and the life
