"Our Love Will Always Last"

Visit "[Our Love Will Always Last](#)" on MotoLyrics.com

As we walk this land
Side by side, hand in hand
I know that some clouds may pass
But if we hold on tight
And love with all our might
Then the thorns in our life will never last

And the roads may sometimes be unpaved
You may think that our love cannot be saved
Though the world out there
May be cold to all we share
I have you, to take me through the night
And if we hold on tight
And stay true to all that's right
Then baby, our love will always last...

See the sunrise in the sky

Kiss the sunset as we lie
At night, I'll never leave your side
But I know someday
I'll be gone, and you'll be gray
Oh, darling, wish that I could heal your pain...

Though the world out there
May be cold to all we share
I have you, to take me through the night
And if we hold on tight
And stay true to all that's right
Then baby, our love will always last...

And if we hold on tight, stay true to all that's right
Then baby, our love will always last
