Here come Jimmy preacher  
Stumblin' 'gainst the wind  
Singin' love, love is something to believe in  
The prayer and the sea  
And twenty tons of me  
Crying love, love is something to believe in  
Too much how I wander, ramblin'  
All my crooked fingers point in blame  
Let it it all wash out in the rain  
Yes, let it all wash out in the rain  
\*whistling\*  
Beyond the drunken focus of my aim  
All my heroes twistin' in the flame  
Just let it all wash out in the rain  
Yeah, let it all wash out in the rain  
One more fall, forgiveness  
Are twistin in the cold  
Singin' love, love is something I believe in  
Too much my defenses  
Are danglin' from the chain  
Aw, but free, free is something to believe in  
To my God I want my gypsy train  
Too much howda howlin' tambourine  
Let it all wash out in the rain  
Let it all wash out in the rain  
Just let it all wash out in the rain  
Let it all wash out in the rain
